Professional Summary

Digital marketing and SEO specialist with freelance experience since February 2023 and agency work through SEO Leads and JDS1 Marketing. Combines SEO strategy and implementation, local search, content publishing, website management, campaign analysis and CRM workflows. Connects hands-on execution with clear client communication, quality review and repeatable delivery. Based in the Philippines and available for international remote roles.

Professional Experience

Digital Marketing & SEO
Freelance | February 2023–Present

- Deliver SEO and digital marketing work across multiple agency client accounts, adapting keywords, content and campaign priorities to each business and market.
- Work with WordPress, Squarespace and GoHighLevel; connect website content, landing-page planning, lead tracking and follow-up processes.

SEO Leads
Current agency engagement (part-time) | SEO, digital marketing & campaign operations

- Execute keyword research, mapping and on-page optimization; review technical SEO, indexing and local search priorities.
- Optimize local visibility through Google Business Profile work, service-area targeting, citations, backlinks and content distribution.
- Analyze Search Console, GA4, Ubersuggest and Looker Studio data; prepare SEO reviews, Google Ads performance summaries and email campaign reports with next actions.
- Coordinate content, press releases and recurring campaign tasks; document processes, assign follow-ups and review deliverables for accuracy.

JDS1 Marketing
Previous agency engagement | SEO, content & website publishing

- Researched and prepared SEO content for client accounts across dental practice services, rehabilitation, packaging and home organization.
- Communicated with clients for content review and approval, implemented requested revisions and published approved posts on their websites.
- Moved blog material through research, preparation, review, revision, approval and publishing within the agency workflow.

Subject Matter Expert / Customer Support
Foundever | August 2020–March 2023

Progressed to Subject Matter Expert in April 2021. Resolved escalations, coached colleagues, monitored quality, analyzed performance and prepared reports and process guidance. Developed the communication, troubleshooting and documentation skills used in remote marketing work.

Selected Work

- SEO & campaign evidence: Keyword mapping, local SEO reviews, email reporting, landing-page planning and lead-tracking excerpts; client details removed.
- Content review & publishing: Agency workflow covering research, preparation, client feedback, revisions, approval and CMS publishing.
- IslaClean Palawan: Independent, AI-assisted 10-page HTML/CSS/JavaScript website with service pages, internal links and a browser-only demo form.

Core Capabilities

Search & content: SEO strategy, keyword research and mapping, on-page and technical SEO, local SEO, Google Business Profile, citations, backlinks, digital PR and content publishing.

Campaigns & customer journeys: Google Ads planning and optimization, landing pages, email marketing, CRM pipelines, lead tracking and marketing automation workflows.

Delivery & analysis: Performance analysis, social content and business profiles, client communication, project coordination, SOPs, task delegation and quality assurance.

Tools & Platforms

SEO & analytics: Google Search Console, Google Analytics 4 (GA4), Google Business Profile, Ubersuggest, Looker Studio.

Websites & CRM: WordPress, Squarespace, GoHighLevel (GHL); basic HTML, CSS, JavaScript and GitHub.

Campaigns & content: Google Ads, Brevo, Mailchimp, Canva.

Productivity & collaboration: Google Workspace, Microsoft Office, Google Sheets, Excel, Basecamp, Slack, ClickUp, Otter.ai.

AI-assisted workflows: ChatGPT, Claude and Gemini for research, planning, drafting and analysis; source checks and manual review before delivery.

Education & Credential

BS in Electrical Engineering | Palawan State University | 2018–2023

Registered Electrical Engineer
